Group Wellness Activities

BUTI YOGA

A yoga class like no other, this calorie-scorching workout fuses power yoga with cardio-intensive tribal dance and body-sculpting primal movement. It utilizes deep abdominal muscles that stabilize and strengthen the body. Instead of linear movements, we favor movements that challenge the body along all planes of motion, resulting in long, lean muscle.

60-minute class: \$125 per person / 90-minute class: \$155 per person

Maximum of 30 guests

BLINDFOLDED YOGA

This Hatha-style class is in an intermediate class that is all about breath and balance. We start with chanting Sanskrit and then work into yoga postures, with our eyes closed to withdraw into our senses (Pratyahara) and then transition to wearing blindfolds. Being blindfolded requires us to engage Pratyahara and takes us from outside to inside on a journey to self-trust and inner awareness. This practice will help your other senses to become deepened and refined.

60-minute class: \$125 per person / 90-minute class: \$155 per person

Maximum of 30 guests

RESTORATIVE YOGA

This class is a form of yoga that seeks to achieve physical, mental and emotional relaxation with the use of props. The use of props helps you maintain balance while stimulating the muscles to stretch and tone them. We use a meditative flow to enhance flexibility, strength and balance.

60-minute class: \$125 per person / 90-minute class: \$155 per person

Maximum of 30 guests

VINYASA YOGA

Vinyasa-style yoga classes link posture and breathing together within a series of sequential movements. This process generates heat in the body and helps to build muscular strength and better flexibility. Sanskrit will be chanted at the beginning and end of class. Yoga experience is helpful but not required.

60-minute class: \$125 per person / 90-minute class: \$155 per person

Maximum of 30 guests

YOGALATES

Yogalates is a technique that involves the stretching and strengthening of all the body's major muscle groups, creating a slender, streamlined shape rather than bulk. It enhances posture, and its main focus is to strengthen the core postural muscles where the abdominal, lower back, pelvic floor and buttock muscles meet. It also fuses the breathing systems of yoga (the ujjayi breathing used to calm the mind) and Pilates (the Pilates lateral thoracic breathing in which the abdominal muscles are used and activated continually throughout the practice).

60-minute class: \$125 per person / 90-minute class: \$155 per person

Maximum of 30 guests

FOREST BATHING / YOGA MEDITATION

Forest bathing is an ancient Japanese healing called "Shinrin-yoku" in which you absorb the forest atmosphere. Soak up the sights, smells and sounds of the natural setting to promote physiological and psychological health. The session begins by grounding ourselves with a guided mediation. We will then walk with meditative practices underway. There will be opportunities to reflect and pause as needed. The class is finished among the trees with a few yoga stretches and a guided Shavasana meditation.

60-minute class: \$125 per person / 90-minute class: \$155 per person

Maximum of 20 guests

COWBOY BOOTCAMP / GRIZZLYMAN FITNESS TRAIL

Looking for a group workout challenge? The Grizzlyman Fitness Trail is a one-mile course near Spa Town comprised of 12 fitness stations. Each station features equipment made from the surrounding timber and offers unique challenges including climbing, balancing, swinging and more.
